OpenShift

A consistent experience anywhere you run

"A combination of fully managed and self-managed Red Hat OpenShift gave us the flexibility and ease of use to deploy applications quickly, where and how we **need**, so our developers can spend time creating innovation for our customers, not on operational tasks. With Red Hat OpenShift's automation capabilities and a continuous delivery approach, we're seeing features and applications getting to market five times faster."

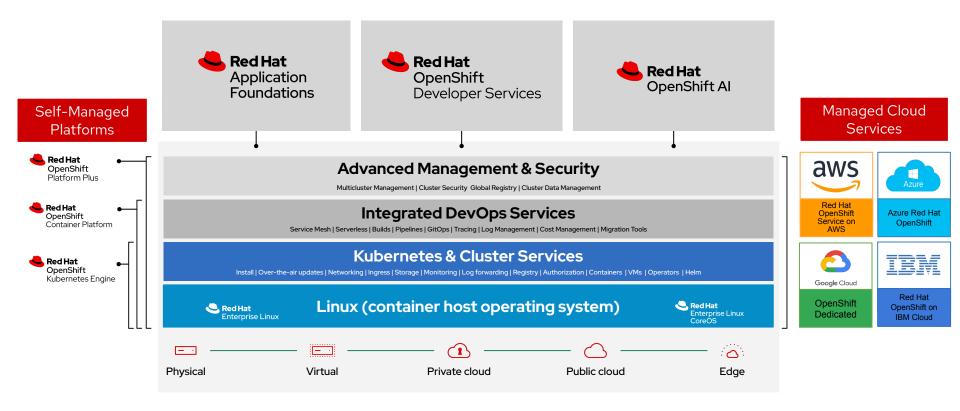

Clemens Utschig-Utschig

Head of IT Technology Strategy & CTO, Boehringer Ingelheim

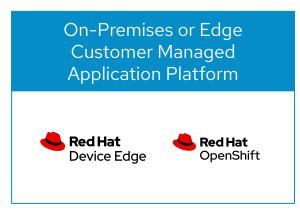

Red Hat open hybrid cloud platform

^{*} Red Hat OpenShift® includes supported runtimes for popular languages/frameworks/databases. Additional capabilities listed are from the Red Hat Application Services and Red Hat Data Services portfolios.

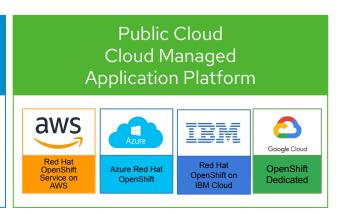

^{**} Disaster recovery, volume and multicloud encryption, key management service, and support for multiple clusters and off-cluster workloads requires OpenShift Data Foundation Advanced
*** Optional add-on

OpenShift is available as a self-managed platform or fully managed service

LOCATION

Red Hat OpenShift cloud services

A turnkey application platform with managed support from Red Hat and leading cloud providers

Focus on innovation

Simplify operations so your teams can refocus on innovation, not managing infrastructure.

Accelerate time to value

Quickly build, deploy, and manage applications that scale as needed.

Hybrid cloud flexibility

Deliver a consistent experience on premises and in the cloud.

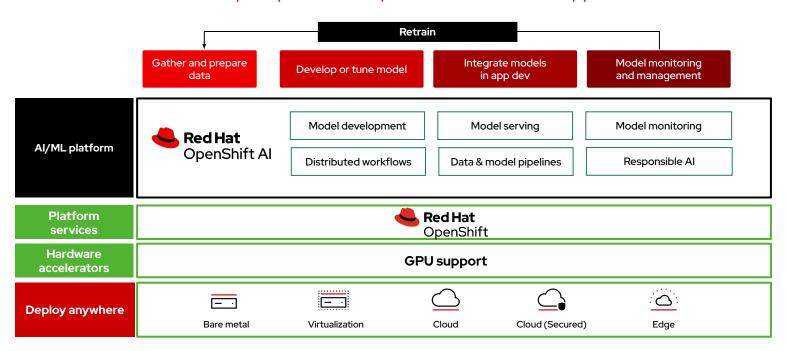

Operational efficiency

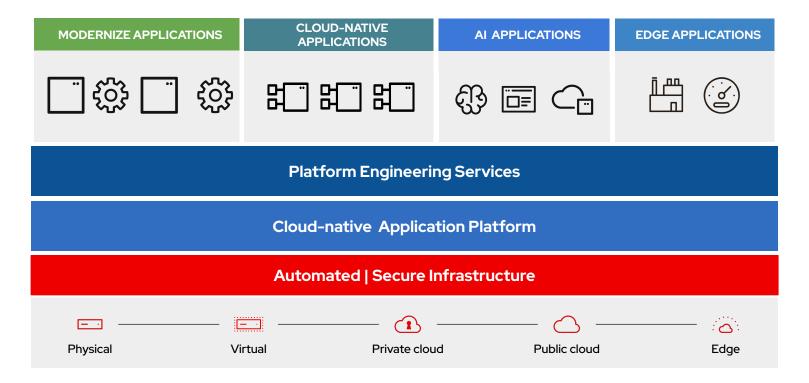

Enhance operational consistency, efficiency and security with proactive management and support.

Red Hat OpenShift Al

Red Hat's AI/ML platform for predictive and Gen AI applications

Red Hat Open Hybrid Cloud

The Forrester Wave™: Multicloud Container Platforms, Q4 2023

"Red Hat sets the pace with enterprise IT capabilities and massive market presence. With OpenShift's systematic innovation and development on multiple fronts, Red Hat has helped transform the MCP market segment."

"The demand for OpenShift prompted AWS and Microsoft Azure to sell OpenShift as a managed service, despite having their own Kubernetes-based container services. Red Hat's differentiated strategic vision is to up the ante on enterprise-grade open source computing."

The Forrester Wave™: Multicloud Container Platforms, Q4 2023: The Eight Providers That Matter Most and How They Stack Up
Oct 2023

Thank you

Red Hat is the world's leading provider of enterprise open source software solutions.

Award-winning support, training, and consulting services make

Red Hat a trusted adviser to the Fortune 500.
